

CLIMATECARE PROGRAMME

JOIN US NOW TO CREATE A BETTER WORLD!

WHAT IS CARBON OFFSETTING?

Carbon offsetting is an internationally recognised way to take responsibility for unavoidable carbon emissions. In a world where climate change is increasingly on the agenda and global emissions continue to grow, we are looking at how we and our Owners can act responsibly and operate our service in a manner that minimises the impact of our operations on the environment.

FLY CARBON NEUTRAL WITH TAG AVIATION

- ✈️ Compensate your carbon emissions by funding an equal reduction in emissions elsewhere in the world
- ✈️ Generate projects around the world that had emissions reductions accurately measured, and projects that deliver climate and sustainable development impacts

5 STEPS on how Carbon offsetting works:

1.  Measure remaining CO₂ emissions
2.  Purchase emission reduction credits to offset
3.  Fund projects to cut emissions
4.  Global emissions reduced
5.  Certificate shows your emissions have been offset

3 BROAD TYPES of Carbon offset project

LAND USE
e.g. Rainforest protection

HOUSEHOLD
e.g. Clean cookstoves, clean water, household solar panels

GRID SCALE
RENEWABLES
e.g. Wind & solar projects

WHAT IS THE COST OF OFFSETTING MY FLIGHT?

We calculate your offset purchase by multiplying the carbon offset hourly rate for your aircraft type by total share size. Example as below:

Carbon offset hourly rate for
Falcon 7X = £33.26/hour
£33.26/hour x 50 hours = £1663 total invoice for yearly carbon offset

When you opt into our carbon offset programme, your money will purchase third party verified and audited carbon credits, thereby supporting these high social and environmental impact projects. Your contribution will support a diverse array of projects with whom ClimateCare works on an exclusive basis. These projects include Gyapa efficient cook stoves, burn efficient cook stoves, Aqua Clara water filters, Bondhu Chula cook stoves, grid-scale renewable energy etc.

YOUR FINANCING IS KEY TO CLIMATECARE'S PROJECTS, PLEASE SUPPORT!
